

# webex™ | mail Business-class email done right

WebEx Mail is the business-class e-mail service you've been waiting for. It's integrated with WebOffice and equipped with all the features you'd expect from the world leader in collaboration.

WebEx Mail is fully-hosted email that delivers a professional desktop experience on the web. There's POP/IMAP support, powerful Live Search, premium anti-virus & spam protection, ample storage space and more. You even get your own domain name.

WebEx Mail is business email done right!

## WebEx Mail

Full-featured, business-class email with the power and flexibility you need

### Powerful Group Email Made Simple

It's never been easier to set up and manage your business email. It takes just minutes to get started and doesn't require IT support. Create mailboxes, assign permissions, manage contacts, and more. Plus, POP/IMAP support lets you use Microsoft® Outlook® or other client software to check email anywhere - from your desk, on the road, or using your compatible mobile device.

### Email @ Your Domain

Use your own domain (you@yourcompany.com) for a professional appearance. Already have one? WebEx Mail can handle that too.

### Exclusive Live Search

Find what you need fast with WebEx Mail's unique Live Search feature and get real-time results as you type. WebEx Mail provides more traditional search options as well.

### Premium Virus Protection and Spam Defense

At WebEx, we're dedicated to the security of your data. From our state-of-the-art hosting facility to our industry leading anti-virus and spam tools, everything is protected around the clock.

### Web Mail with a Desktop Experience

WebEx Mail delivers a professional desktop-like email experience using your web browser. With right-click menus, drag-and-drop functionality, keyboard hotkeys and fast page updates, WebEx Mail is what you expect from a desktop application - with all the advantages of working on the web.

### WebOffice Integration - Accessible Anywhere

WebEx Mail is integrated with WebOffice, allowing you to send/receive email, share documents, schedule appointments, create databases and conduct web meetings - all from a single web interface. And because it's on the web, it's all accessible anywhere you need to work. Staying on top of your business has never been easier.

### No Hardware or Software

WebEx Mail has all the powerful features your organization needs for group email - without the hassle of buying and maintaining an in-house solution. Because it's all hosted on the web, it's always up to date, backed up and secure, letting you focus on your business.

## Email that's easy to set up and easy to manage

### Business-Class Email Integrated with Your WebOffice

WebEx Mail is a premium service that's part of your WebOffice. Send and receive email, share documents, schedule appointments, create databases and conduct web meetings - all from one central resource. It's easy to set up, simple to manage, and there's no need for hardware, software or IT support. It's business-class email done right.

### Desktop-like Features and Functionality

WebEx Mail's web interface delivers the features you expect and more. Advanced features like right-click menus, drag-and-drop functionality, keyboard hotkeys and fast page updates make it easy to use. You can even set up custom rules to automatically manage and sort your mail.

### Exclusive Live Search Capability

WebEx Mail's powerful Live Search functionality gives you real-time results as you type. With 3 levels of search options, WebEx Mail makes it easy to find the information you need fast.

### POP/IMAP Compatibility with SSL

Use Microsoft® Outlook® or other client software to check or send email from your desk, from the road, or from your compatible mobile device. WebEx Mail provides SSL encryption for server connections to ensure the highest level of security for your information.

### Public Mail Folders

Use public mail folders to share emails with designated users, groups, and departments - with full Administrator-managed permissions.

### Premium Virus Protection and Spam Defense

WebEx Mail includes premium real-time virus and spam protection. Plus, you're always protected from new threats with continuous updates. Administrator- and User-configured spam controls let you tune the ideal level of spam protection. You can even set up "Allow" and "Block" lists to specify who gets through and who doesn't.

### Ample Storage Space with Room to Grow

Each WebEx Mail user mailbox includes ample storage that can grow with you. You also get separate public folder storage for group and department emails, managed with full Administrator-defined permissions.

### Powerful and Flexible Mail Options

Easily create powerful rules to automate the management of your email (move, delete, forward, reply, reject, quarantine, trash, etc.). Create Out-of-Office and Vacation messages that start and expire on set dates, and more. Administrator- and User-level settings provide customized control for maximum efficiency.

### Group and Personal Address Books

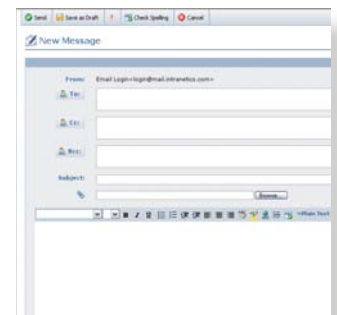

WebEx Mail's address book is integrated with your WebOffice. Send email to public contacts or personal contacts - without having to populate a separate address book. Easily sort, edit, and search contacts to quickly find who you need. Plus, IntelliSync™ keeps it all in sync with compatible Outlook® and Palm® devices.

### Administration Console

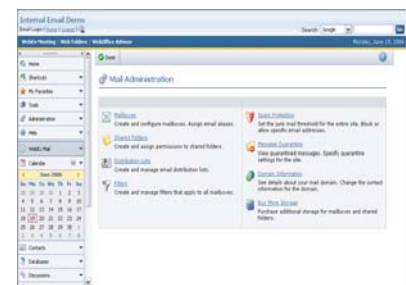

WebEx Mail makes it easy to manage mailboxes from anywhere. Create & delete mailboxes, distribution lists & groups, configure shared folders, assign global spam settings, block lists, and much more.

WebEx Mail gives you a desktop-like experience with advanced features - on the web. It's business-class email done right.

Simple and intuitive, WebEx Mail is ideal for your business.

Manage your email accounts from one central location. It's the way business email is supposed to be.
